

## Middle School Supplies 2024-2025

Some middle school classes require the student to have a separate binder. It will be up to each student to best organize for their other classes. For students who don't want a binder for every class, a 3-ring zipper binder is strongly recommended. The zipper helps middle school students from losing important things and allows them to carry supplies to every class.

***Elective supplies*** - Supply lists for elective classes will be provided when students pick up their schedules this summer.
