

Summer Reading : 11th and 12th grade Doctrine
Burns & Martin
The Problem of Pain
C.S. Lewis

Introduction

In this succinct masterwork by C.S. Lewis, the world's most famous Christian apologist explores some of life's most perplexing philosophical questions and finds answers from God's words as revealed in the Bible. Lewis contemplates God's sovereignty and omnipotence, God's goodness versus humanity's wickedness, the reality of the pain humans must deal with as a result of the sinful fall, the realities of what the future holds, and the decision each of us has to make about God.

Objectives:

- Purchase a copy of *The Problem of Pain* by C.S. Lewis
 - Students are encouraged to read this book with a highlighter and mark up their copy with notes.
 - Three discussion board topics will be introduced this summer in Google Classroom. Students are encouraged to participate in the discussion for extra credit.
 - ***You have been sent an email from Jonathan Koan with your respective grade level's Google Classroom invitation.***
 - During the first semester, students will work on a major project involving interactions with the book.
 - The project involves recording a **Podcast** in which students will be assigned questions to ponder and then articulate informed opinions.
 - Students will receive further instructions and a detailed rubric during the first semester.
-
